

PAAVAI ENGINEERING COLLEGE
(Autonomous)

Department of Computer Science and Engineering & AIDS

TECHFINIX'25

EVENT DESCRIPTION

Event: LOGIC FESTIEA

Round 1: Build a flow (Conducted in Classrooms)

- The concept will be announced on the spot and the teams must complete the flowchart within 5 minutes.
- They must use correct symbols and logical order of operations . The best and most accurate flowcharts earns the highest points.

Number of Concepts: 4

Time Limit: 20 minutes

Round 2: Hunt the Error (Conducted in Lab)

- Code snippets with logical and syntax errors will be given to Participants. They must identify and correct as many errors as possible within the time limit.
- The team who solves the maximum number of errors correctly will be declared as the winners.

Number of Programs: 3

Time Limit: 25 minutes

Event: MEMORY MASTER

GENERIC RULES

- Avoid using mobile phones during the event.
- Do not copy answers from others.
- Avoid discussions or disturbances during the rounds.
- Manage your time efficiently for each question.
- Do not reveal answers to anyone.
- Each round is for individual participants only — no teams allowed.
- The final decisions will be made by the event and staff coordinators.

Round 1: Logo Finding

- Participants will be shown a series of brand or company logos.
- All participants will receive the same set of logo-based questions.
- Each question will have a time limit of 30 seconds.
- Total duration for this round will be approximately 10 minutes.
- This round will test focus, accuracy, and quick recall ability.

Number of Concepts: 50 points.

Top scorers from this round will qualify for Round 2.

Round 2: Spot the Change & Pictorial Memory

- Participants will face two visual memory challenges:
- Spot the Change: Identify differences between two similar images.
- Pictorial Memory: Observe an image for a few seconds and recall details accurately.
- Total time limit for this round is 15 minutes.
- Scoring will be based on accuracy, observation skills, and memory recall speed.
- Highest scorers of this round will be declared the winners.

Event: PROMPT PARADOX

GENERIC RULES :

1. Laptop Is Mandatory.
2. Participant may be an individual or team of two.
3. You are strictly prohibited to use LLMs like ChatGPT, Gemini...etc to write prompts.
